

Adobe

Adobe® Acrobat® Capture® 3.0

Bring paper to life on the Web

Target Markets

Business professionals in:

Government, pharmaceutical, discrete manufacturing including defense and aerospace, service bureaus, and all paper-intensive businesses.

Customer Challenges

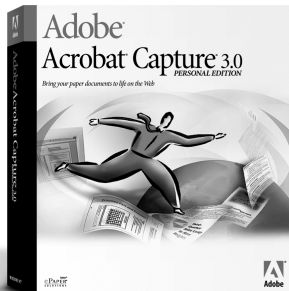

- Has business-critical paper-based information that needs to be published, distributed, and shared on an intranet or the Internet.
- Wants to sell information services or publicize valuable collections of information on the World Wide Web or CD-ROM.
- Requires a high-quality, cross-platform file format that is searchable and preserves page fidelity.

Key Selling Points

- Optimizes access to information—instead of archiving static paper images, creates searchable Adobe PDF files that can contain metadata and hypertext links.
- Lets you publish documents electronically—store documents in compact Adobe PDF while preserving the look and feel of the original document or form.
- Lets you work productively with professional tools—new capabilities let you automate workflows, improve content recognition, verify and correct information more efficiently, and scale to meet high volume requirements.
- Integrates seamlessly with front-end imaging solutions and back-end document management applications to make documents available enterprise-wide.
- Runs on a Windows NT® workstation to provide scalability, reliability, and stability.

Key Features

- Converts scanned paper documents to compact, searchable Adobe PDF files. Anyone on any platform can view, navigate, or print files with the free Acrobat Reader™, which is available at www.adobe.com.
- Save files to one of four different flavors of Adobe PDF file types, HTML, or ASCII—optimizing files for your unique requirements.
- Converts documents from JPEG, TIFF (including G3, G4, and LZW formats), PCX, BMP, or PDF Image Only formats.
- Performs Optical Character Recognition (OCR) to recognize text in sixteen languages and includes legal, medical, scientific, and large user-defined dictionaries.
- Recognizes font styles and customized font sets for improved OCR accuracy and font mapping.
- Improved page decomposition lets you convert forms, tables, and visually rich color pages into Adobe PDF files that need less clean-up before publication.
- Creates hypertext links automatically, including table of contents, indexes, cross references, e-mail links, and URLs, increasing productivity and making documents easy to navigate.
- Exports HTML with frames, cascading style sheets, and hypertext links.
- Image clean-up options include a deskew agent plus in-the-box integration that works with popular third-party tools from Kofax and TMS/Sequoia.
- New workbench interface acts like a command center, letting you build customized workflows, submit jobs, track the progress of automated functions, and interact when manual intervention is needed.
- Creates reusable document-processing workflows tailored to different types of conversion projects.
- Includes 22 step templates that let you automate the capture, manipulation, collation, touch up, export, conversion, and delivery of files to a wide range of destinations including e-mail.
- New QuickFix tool lets you correct OCR suspects efficiently, sorting by word, reason, or confidence level for each document.
- New Zoning tool lets you define areas of scanned pages to be treated as images or text, or ignored during the OCR process.

Acrobat Capture 3.0 is a professional production tool that lets you turn volumes of paper-based information into searchable electronic documents optimized for publication on the Web, on CD-ROM, and to document management systems.

- Improved Acrobat Reviewer tool lets you change font formatting, re-assign font styles, edit intradocument links, and place hidden keywords.
- ODMA and metadata support enables easy integration with more than 20 document management systems.
- Supports over 150 desktop and high-volume scanners plus others through ISIS® and TWAIN drivers.
- Enhanced scanning options include fixed size batches, reusable scanner settings, and 54-by-54 inch paper size support.
- Robust error handling and notification features ensure job completion.
- Acrobat Capture Personal Edition lets you convert 20,000 searchable PDF pages. Additional page packs can be purchased separately.
- Acrobat Capture Cluster Edition is scalable to accommodate high-volume requirements, offering workload balancing and multiprocessor support. It converts an unlimited number of pages.
- New Acrobat Capture Assistant software is included with the Cluster Edition and lets up to 5 additional workstations offload labor-intensive tasks that require human intervention.

Product Complements

- Use Adobe Acrobat Business Tools to take advantage of powerful Adobe PDF collaboration features that can streamline your document review, mark-up, and approval process.
- Use Adobe Acrobat 4.0 to create Adobe PDF files from your favorite software application and refine your Acrobat Capture files. Create full-text indexes to streamline searching, create Acrobat forms, and add electronic annotations or digital signatures.
- Use image enhancement tools from TMS/Sequoia or Kofax to clean up images for greater OCR accuracy.
- Use Adobe Acrobat Messenger software to make paper-to-digital conversion available at the workgroup level. Configured as a walk-up station, Acrobat Messenger transforms paper into Adobe PDF files and delivers them via e-mail, the Web, and more.

Why Upgrade from version 2.0?

- New tools and a new user interface do more of the job for you automatically and let you work more productively than ever before.
- Improves content recognition including fonts, page elements, and foreign languages.
- Scalable for volume requirements.
- Superior integration with third-party software.

System Requirements—Windows NT

- Pentium® or faster Intel® processor
- Windows NT® 4.0 or later operation system with Service Pack 3 or later
- 64 MB of available RAM (128 MB recommended)
- 86 MB of available hard-disk space (127 MB recommended)
- Display card with 1,024x768 resolution
- CD-ROM drive
- LPT/Parallel port (Personal Edition only)
